

**Summary of Plenary Group Comments
Recreation and Socioeconomics Work Group
Resource Action Recommendations**

RWG #	Comment
LF25-31	City of Oroville: DP17, LF12, LF20, LF22 are not from the City of Oroville; LF 20/22 really describe LF29; and LF 30 really describes DP3.
LF3, 28	<p>City of Oroville: This RA has a large amount of support (see Poe project); City is undergoing expense, conducting studies, gathering information, and suggests the State gather information as well; please include this RA on "A" list.</p> <p>Butte County: County agrees; extraordinary importance to the County; would need to do environmental assessment at some point; Joint Powers Authority is representative of local community.</p>
LF 24, 3/28, 5 (Recommend moving from Category "S to Category "A")	<p>JPA: Requests that these six RAs be re-categorized.</p> <p>Butte County: County supports JPA's request for the six RAs to be re-categorized.</p>
LF 25, 34 (Recommend moving from Category "B" to "A")	Wade Hough: State is not approving new water projects so economic value of development will be diminished; we will always have water in LF section; so RA is a good long-term bang-for-buck; strongly support giving them analysis.
OR 80	Sam Dresser: I have submitted a RAIF
Overall	<p>Group Discussion: Plenary approve RSWGs to proceed, except on those that Doug Rischbieter is going to review notes/discuss approach in RSWG for categorizing.</p> <p>Michael Pierce: Consider low support for TA 14 which suggests that it is fair to include the six RAs that the County has flagged for re-categorization; Does the Plenary Group have authority to override RAs?</p> <p>John: Don't want to push them to "A" list just because people want to see them there; stay consistent with rationale; may be no basis to include.</p>

Attachment 9

	<p>Harry: ready to discuss reports at next meeting? How long have you had them to review? Prepared by consultants?</p> <p>Doug: Yes, will be proving study plans over next four meetings; Needs Analysis in May; reviewed by DWR over last 4-6 weeks for batch one; 2.5 weeks for batch two; haven't reviewed others</p>
TA14	<p>CDFG: Please review notes related to this item.</p>
